WOOD MADERA

BUILT FOR EXCELLENCE

CONSTRUIDO PARA LA EXCELENCIA

1. Solid Core: Provides structural integrity, soundproofing, and fire resistance.

2. Premium Wood Veneer: Natural wood selected from sustainable forests.

3. Edge Banding: Solid wood edge, matching the veneer to prevent tonal variations and ensure a refined finish.

4. Moulding or Solid Channel: Made from the same wood to avoid color differences and provide a smoother finish.

5. UV-Coated Finish: Scratch-resistant with UV protection to prevent color fading over time.

1. Alma Maciza: Garantía estructural, acústico, corta fuego.

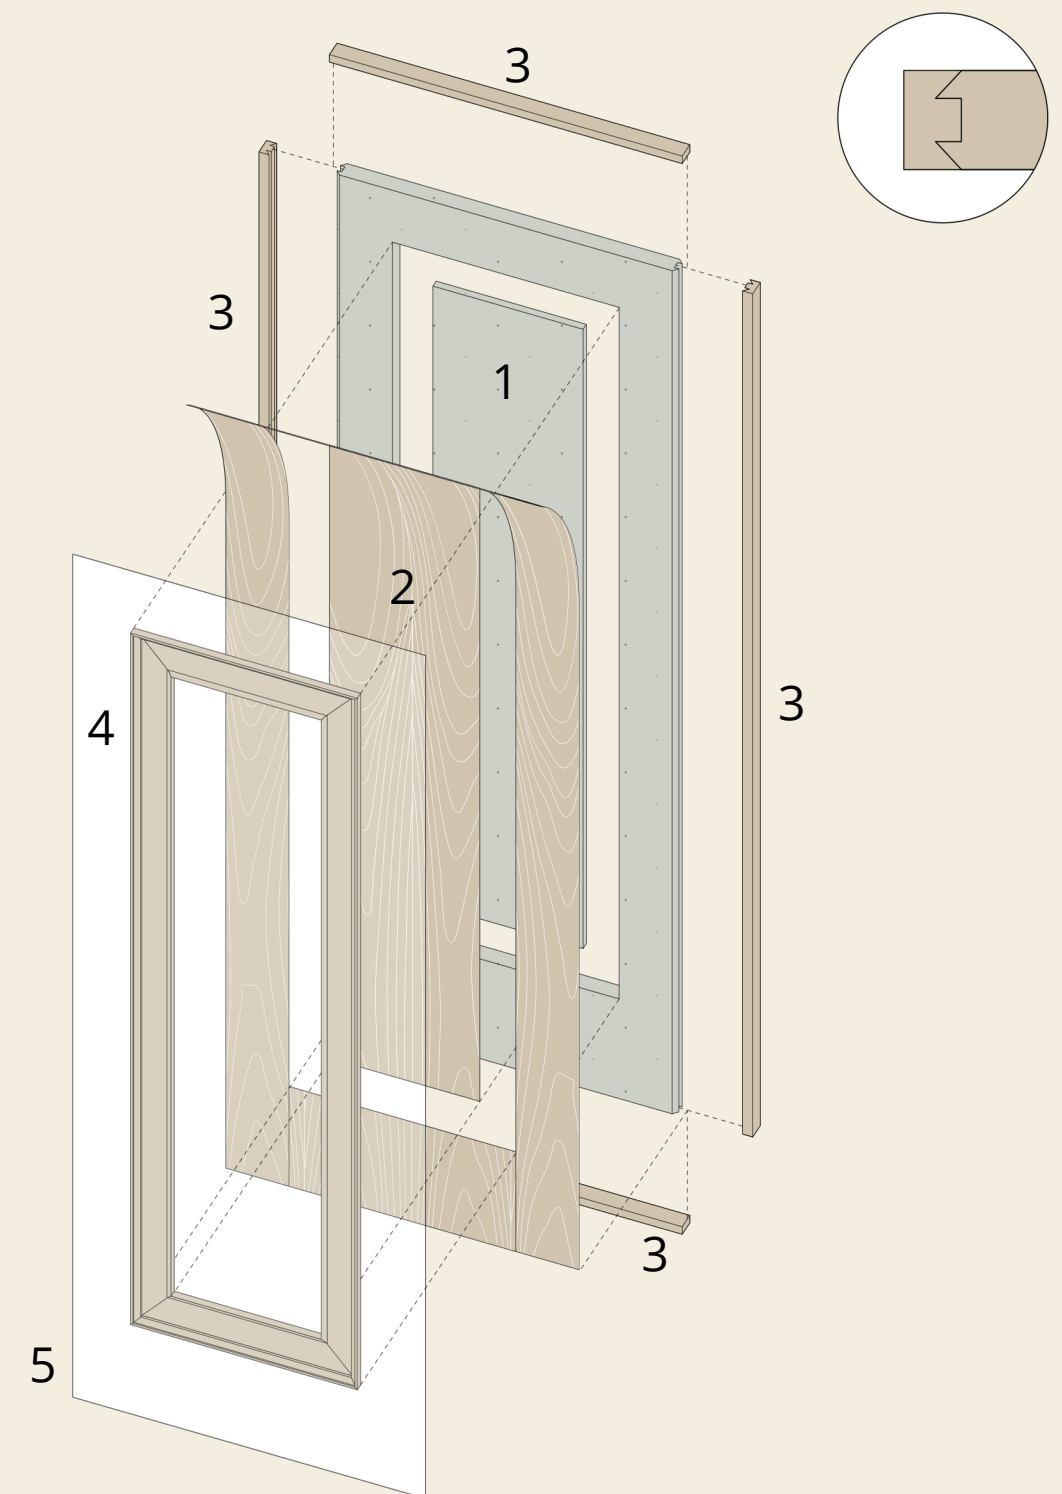

2. Chapa Madera Primera Calidad: Madera natural seleccionada de bosque sostenible.

3. Recercado: En madera sólida, igualado a la chapa para evitar variaciones de tono y garantizar un acabado refinado.

4. Moldura o canal macizo: misma madera para evitar cambios de tono.

5. Barniz UV: resistente al rayado, filtro UV para evitar cambio de tono a través del tiempo.

WOOD MADERA

VETA

With a sleek and elegant design, this wooden veneer door stands out for its unique grain matching patterns, adding personality and character to any space.

From residential projects to commercial settings, it offers the perfect balance of functionality and aesthetics, enhancing every space with understated elegance and guaranteed durability.
